ATTACHMENTS: MATERIAL SAFETY DATA SHEET

1. EFFECTS OF ACUTE OVEREXPOSURE:

Inhaling: Anesthetic. Irritates respiratory tract. May cause serious nervous system depression.

Skin or eye contact: Primary irritation.

POISON !!

EFFECTS OF SWALLOWING AND CHRONIC OVEREXPOSURE:

Liquid causes eye irritation. Liquid may cause skin irritation. Vapor harmful. Vapors may cause flash fire. Tends to form explosive peroxides especially when anhydrous.

2. EMERGENCY AND FIRST AID PROCEDURES:

In case of contact with skin, flush with plenty of water. For eyes, flush with plenty of water for 15 minutes and get medical attention.

If exposed to high concentration of vapor, remove to fresh air. If swallowed, CALL A PHYSICIAN IMMEDIATELY! Induce vomiting promptly according to physician's instructions or by having patient stick finger down throat. Never give anything by mouth to an unconscious person.

3. SPECIAL PROTECTIONS:

Vapors may ignite explosively. Vapors may spread long distances. Prevent build-up of vapors. Extinguish all pilot lights and turn off other sources of ignition during use and until all vapors are gone. Do not store above 49° C / 120° F. Store large amounts in structures made for OSHA class 1B liquids. Avoid free fall of liquid. Ground containers when pouring. Do not flame cut, saw, braze or weld. Empty container hazardous! Continue all label precautions.
